

Hangers

If an item is to be on a hanger it will be indicated in the item’s product specification package.

All hanging items must be on a hanger that is from the approved Eddie Bauer suppliers listed in the Appendix Section. If you would like to source your hangers from an alternate source, you must obtain approval by sending two samples of your hangers to the Eddie Bauer Packaging Developer prior to packing the product in case the samples are not approved.

The hanger must be of sufficient strength to hold the garment without bowing.

All hangers are black plastic and a metal hook construction.

Absolutely no “all-wire” or “all plastic” hangers are to be used.

APPROVED HANGER STYLES

All hanger model numbers are from Mainetti.
